

Announcement

Conservative investors are investigating and purchasing blocks of stock in the Elmhurst Investment Company ranging in amounts from \$1,000 to \$5,000 each. Why?

First—Because the Company is not an experiment; it has made a success, and with the same conservative management in the future as in the past, with the added capital on which to do a larger business, even a greater success may reasonably be expected.

Second—Because the funds of the stockholders are invested in real estate mortgages, bonds or good selected real estate itself; no safer or better security.

Third—Because the Company has been and is being honestly and conservatively financed and managed.

From property sold it has an annual income in principal and interest of \$15,000.

Its stock has a book value of \$110 per share, but \$100,000 capital stock is now offered the public at par, \$100 per share.

The proceeds of the sale of stock will be used to extend the company's line of activity and field of operation, enabling it to take advantage of opportunities for real estate operations in several Western cities which are now available.

The active management of the company is in the hands of the President of the Company, N. B. Burge, who promoted and sold the Elmhurst addition to the City of Topeka; J. N. Dolley, former Bank Commissioner of the State of Kansas, and J. Will Kelley, recent Secretary of the Topeka Commercial Club.

Its directors and stockholders include such well known Kansans as:

C. W. Kouns, General Manager of the Santa Fe Railroad; A. A. Godard, ex-Attorney General; J. N. Dolley, formerly State Bank Commissioner and author of the "Blue Sky Law"; Charles Curtis, ex-United States Senator; Arthur Capper, publisher; C. W. Horn, principal owner of the E. Horn Company, of Topeka; Louis Van Dorp, sheet metal manufacturer; J. C. McClintock, prominent physician and surgeon; J. F. Haskell, Manager of the Continental Creamery Company, and Marco Morrow, advertising director Capper Publications.

The books of the company will be opened Tuesday, September 15, for subscriptions for the additional \$100,000 capital stock now authorized. Applications for stock will be received at any time at the main offices of the company in the New England building, Topeka.

The company offers this stock in the firm belief that it affords the investor an exceptional opportunity for a safe investment yielding good returns.

Prospectus and Financial Statement
Upon Application

Elmhurst Investment Co.

516-517-518 New England Building
TOPEKA, KANSAS

OFFICERS AND DIRECTORS

N. B. BURGE, President C. W. HORN, Vice Pres.
W. C. GLENN F. E. PARR
J. N. DOLLEY
C. A. O'MEARA, Secy. LOUIS VAN DORP, Treas.
A. A. GODARD, General Attorney.

Admitted to do business in the State of Kansas and authorized to sell stock by the State Banking Department and State Charter Board, under the "Blue Sky" Law.

FAD AT BRYN MAWR.

Class of Girls to Be Educated in the Open Air.

Philadelphia, Aug. 14.—Twenty girls ranging in age from 10 to 12 years will be started on an eleven year course of physical and mental training at Bryn Mawr college next month on what is planned to be the latest and most advanced theory of education according to plans made public today.

The class will attend school in the open air, bunched up in Eskimo suits in the winter and with only glass windows to shield them in stormy weather. The course for the first seven years, the elementary part of the training will include instructions in interpretative dancing, gymnastics and athletic games, including baseball.

Lunches will be served in the open air school and a half hour each afternoon will be given to sleep. From the time the class enters next fall until the seven years of elementary training is completed, and the girls are ready for the four years' college course, the pupils of the school will study, eat, sleep and play in the open air from 9 o'clock in the morning to 3:30 in the afternoon.

The school was made possible through a legacy left in 1910 by Phoebe Anna Thorne of New York, and it has been named for her.

LUCE IS PRESIDENT.

Head of State Labor Unions—Other Topekan on List.

Kansas City, Aug. 14.—The meeting of the Kansas State Federation of Labor in the auditorium of the Kansas side city hall yesterday afternoon resulted in a break of the harmony which has characterized the three preceding sessions. The storm arose over the election of officers and particularly over the re-election of Sam A. Bramlette for re-election to the office of president by M. L. Luce, a printer of Topeka, who is the youngest delegate to the Missouri Federation of Labor.

These other officers were elected: G. B. Edgell, a teamster, Leavenworth, secretary. James Sniderman, a carpenter, Kansas City, Kan., second vice president. E. C. Salsbury, a machinist, Osawatomie, third vice president. W. L. Porter, a plumber and city park commissioner of Topeka, chairman of the legislative committee. Mrs. M. E. Spadden, garment worker, Kansas City, Kan., state factory inspector.

SHIP STOCK TO MARKET.

Drought Forces Chase County Farmers to Sell Cattle and Hogs.

Cottonwood Falls, Aug. 14.—Shipments of more than half a hundred carloads of cattle for the first two days of this week and orders now in calling for almost as many more cars shows the rapidly with which stockmen of Chase and the west part of the county now are rushing their cattle to market as a result of failing pastures and water. Already it is estimated that one-third of all the grass cattle on the western range of the county have now been put on the market. For the same period, the movements of stock from the Bazaar, Matfield, Hymar and Thurman localities have also been heavy. While the Butler and Greenwood county ranges around Cassoday, the shipping, it is said, is even heavier. In some of these sections, it has now been six weeks since rain has fallen, which, together with the severe heat that has prevailed most of the time, has turned pastures brown and dried up many springs and watering places which stock were dependent on.

SANTA FE NOTES.

Items for this column may be phoned 3515 or State Journal office.

Engine Inspector N. M. Sponagle of Shawnee, Oklahoma, spent a few days with T. C. Tinsley and family, who yesterday for California, where he will remain for two or three months.

Machinist George Weaver and wife and daughter Naomi and son Jack will leave Saturday for a Western trip and will visit Los Angeles, San Francisco, the Catalina Islands, Portland, Oregon, Salt Lake City and the Grand Canyon. They will be gone a month or more and Mr. and Mrs. Weaver will occupy their home at 1710 Madison street, during their absence.

Switchman F. H. Morgan's wife is seriously ill at their home from heart trouble from which she has suffered for the past few weeks and is reported not so well today.

Conductor and Mrs. Clint Coddington have for their guests Mr. and Mrs. C. Smith of Salt Lake City. Mr. Smith was in the meat market business here a number of years with Mr. Abbott.

Engineer E. E. Smith will return today to Gridley, Kansas, where he is running the motor car, after spending a few days with his family.

A. C. Brown, general passenger agent of the North Western railroad, with headquarters in Kansas City, was visiting Santa Fe friends here Wednesday and looking after company business.

E. M. Gregory, representative of the Burlington system was in Topeka yesterday on company business and spent the afternoon with Santa Fe friends and left last night for a Western trip.

Miss Della Hughes of the freight claim office and Miss Mabel Beeler of the electrical department will leave Saturday for Montreal, Canada, where they will spend their vacation.

Robert Norris, of the Missouri Pacific railroad, whose offices are in St.

Summer-Spoiled Skin Removed by Absorption

(From Home Queen.)

As undecorated summer exposure usually leaves an undesirable surface of tan, dirt or grease, often freckles, too, it would seem more sensible to remove such surface than to hide it with cosmetics. There's nothing better for this than our new mercurized wax, which actually absorbs an unwholesome complexion. This thin layer of surface skin is itself absorbed, gently and gradually, and there is no inconvenience and no detention indoors. Just spread the wax lightly over the entire face at bedtime and take it off in the morning with warm water. If you will get one ounce of mercurized wax at the drug store and use for a week or so, you may expect marked improvement daily. When the underlying skin is wholly in view your complexion will be a marvel of spotless purity and beautiful whiteness.

Don't let those summer wrinkles worry you worry will breed more wrinkles. Better to benefit them by bathing the face in a solution of powdered salicylic acid, dissolved in 1/2 pt. witch hazel. Used daily for awhile this will be found wonderfully effective.—Adv.

Louis was visiting Santa Fe friends here Wednesday and left in the evening for the East.

C. J. McNeal of the Wells-Fargo depot office returned last night from Chicago where he spent two weeks of his vacation.

George Baker, the well known drayman at the depot, was operated on at Christ's hospital Tuesday and is in a serious condition.

General Chairman Cadie of La Junta and Local Chairman Beeler of Argentine and Local Chairman McGinnis of Topeka of the Brotherhood of Locomotive Engineers are visiting the general offices and transacting business for the men they represent.

Engineer Arthur Isip is off duty on account of the serious illness of his little granddaughter, Helen Lee Burka.

FIRST IN 32 YEARS.

A New Grave Is Made in the Old Hebrew Cemetery.

Philadelphia, Aug. 14.—For the first time in 32 years a new grave has been made in the Old Hebrew cemetery of the Portuguese congregation Mikve Israel, in this city when the remains of Miss Josephine F. Ewing, of Baltimore, great grand niece of Rebecca Gratz heroine of Sir Walter Scott's Ivanhoe, was buried beside the grave of her famous relative. The old burial spot which was established in 1740 contains the graves of many members of the congregation who lived during the era of the revolutionary war. It is now in the care of Hebrew historical society.

DRANK CYANIDE OF POTASSIUM.

Thought It Was Water—Dies Despite Efforts of Doctors.

Wichita, Kan., Aug. 14.—Going to the rear of a jewelry store to get a drink of ice water, Joe D. Curtis, salesman for a tea and coffee house, picked up a tin cup, dipped into a jar and took a drink.

"That doesn't taste like water," he said, turning to G. C. Stairs, proprietor of the store.

Stairs turned around from a stand where he was combing his hair.

"That's cyanide of potassium," shouted Stairs as he grasped Curtis by the arm and rushed him to the street where he tried to get him to a drug store. Curtis walked rapidly a half block and then fell dying to the sidewalk.

Two doctors were called, a stomach pump used and a pulmotor applied to the body but to no avail.

The dead man was the son of W. D. Curtis, court bailiff and a pioneer resident.

EAST SIDE NOTES.

[Items for this column may be telephoned to 3515 or the State Journal office.]

Ases Carolyn B. Whittlesey has issued invitations to the certificate of appreciation, Miss Hazel Bernice Coffran, which will take place Friday evening at 8 o'clock at the home of Mrs. J. G. Mrs. H. Klopfer and daughter Wilma, 201 Madison street, left yesterday for Leavenworth, where they will visit relatives and Mr. Klopfer will join them Saturday and will spend two weeks vacation in Leavenworth and Kansas City.

Miss Etta Walker of St. Joseph, Mo., is spending a few days with her sister, Mrs. H. H. Weaver, and family at Tecumseh.

Miss Clara Smith, 334 Madison street, entertained o'clock luncheon yesterday the following friends: Mrs. C. R. Kinsey, 250 Western avenue; Mrs. Heller, 222 Madison street; Mrs. Margaret Mabel Nye of Chicago, Miss Margaret Smith of Seaton, Ill., Mr. and Mrs. E. E. Smith and son Kenneth, 415 East Ninth street, and Mr. Byron Smith of McFarland.

Mrs. J. S. Zinn and daughter Mamie of 122 Beacon street are spending the week in Kansas City with Mrs. F. Shaver.

For expert watch repairing go to E. G. Osborn, now at 512 Kansas ave.—Adv.

Perfection of American Beauties Dead. Washington, Aug. 14.—C. Leslie Reynolds, famous in horticultural circles as the perfection of the American Beauty rose, dropped dead here while chasing some boys in the national botanical gardens. Mr. Reynolds was superintendent of the gardens. He was 59 years old and had been 30 years in the employ of the government, devoting most of his time to the culture and care of American Beauty roses. These flowers reached their most luxurious growth as a result of Reynolds' experiments.

State Veterinarian Resigns. Jefferson City, Aug. 14.—Dr. Samuel Sheldon, state veterinarian, tendered his resignation effective September 1 to Governor Major today. He was appointed by Governor Hadley.

DE YOUNG RESIGNS.

Friction Develops in Panama Exposition Management.

San Francisco, Cal., Aug. 14.—The board of directors of the Panama-Pacific Exposition has accepted the resignation of M. H. De Young, proprietor of the San Francisco Chronicle as chairman of the exposition committee on concessions and admissions. It was announced in the Chronicle here today.

Objecting to the attitude of President C. C. Moore of the exposition toward the committee brought about the resignation which was submitted two months ago and refused by the directors. Since that time, the directors have made efforts to smooth over or eliminate the trouble. President Moore, Mr. De Young says, refused to sign concession permits about which he was not consulted, although a director resolution is quoted by Mr. De Young as giving the concessions committee full sway. Mr. De Young continues as vice president and a member of the board of directors of the exposition.

ENLISTMENTS FALL OFF

The Army Reserve Plan Is Given as the Cause.

Washington, Aug. 14.—Enlistments in the army are falling off about 400 men a month and army officials believe it to be largely due to the establishment of an army reserve created by act of congress. However, only eight men formerly in the army have joined the reserve which was inaugurated last November, although this number does not include those who have enlisted since November and who must serve three years in the reserve following their discharge from the army.

The average number of enlistments in the army since November 1 last has been about 2,000 a month, whereas it should have been about 2,400. Officers opposed to the reserve plan contend desirable men are being lost to the army by the reserve plan. It was pointed out also that the "reservists" would receive a bounty of only \$5 a month in case of war, whereas a man who re-enlisted would receive a bounty ranging down from \$8.

OLD FOSSIL FOUND.

Most Ancient of All Discovered on This Continent.

Durango, Colo., Aug. 14.—The discovery of most ancient skeleton of a fossilized man found on this continent was announced by Professor Henry Fairfield Osborn, president of the American Museum of Natural History, New York, on arriving with a party of scientists from the desert sixty miles southwest of Farmington, N. M.

The skeleton was found in the Kimbetch Draw, directly north of Pueblo. It was found by the museum party headed by Walter Granger and according to Professor Osborn, represents the beginning of mankind life on this continent. The specimen is about the size of a wolf and evidently a herbivorous animal. In the same draw three complete skulls were found, one of a large carnivorous type.

Amount of Cotton Consumed.

Washington, Aug. 14.—Cotton consumed in the United States during July amounted to 468,246 running bales consumed with 46,604 bales consumed during June, the census bureau announced today. Cotton on hand July 31 in manufacturing establishment amounted to 1,022,548 bales and in independent hands 419,954 bales. Imports were 9,496, equivalent 590 pound bales; exports 140,710 bales. Cotton spindles active during July numbered 39,022,654.

Rather Vote Than Fight.

Chicago, Aug. 14.—"I would rather vote than fight for president," shouted Frank Rodriguez, a native of Guadalajara, Mexico, in appealing for naturalization papers yesterday. "They revolt before breakfast every day down there and you never know which side you're fighting on. If you go into any kind of business and make a deal with some one, some day you'll break it. They simply won't let you amount to anything."

???????

Bewilderment!

Have you ever started out to do some shopping, and spent about four times as much time as you thought it would take and wound up disgusted, disgruntled and dissatisfied?

Of course you have. We all have done it.

In the end we wake up to the fact that we have consumed a lot of time, energy and money to obtain a far from satisfactory result. And all because we were operating without a rudder, so to speak. We were not informed as to just what we wanted nor where to get it quickly and conveniently.

A little careful study of our newspaper advertising would have prepared us if we had taken the pains to inform ourselves.

Try it the next time you start out on a shopping expedition. The result will gratify you tremendously.

Insist on this label on all your bread wrappers

CANCER Tumors and ulcers treated by knife or plaster used. Dr. McLaughlin, 222 E. 11th St., Suite 36, Kansas City, Mo.
